Statement of Financial Position

Total Assets

Unit: Million Baht

- Increased assets from the end of last year were mainly resulted from additional investment in machinery as well as higher inventories .

Total Liabilities

Unit: Million Baht

- Increased liabilities from the end of last year were due to higher short-term loans for investment in machinery and liabilities under financial lease.

Equity

Unit: Million Baht

- Increased equity of parent Company's shareholders was contributed by operating profit during the year.

- Reduced current ratio YoY was mainly due to lower trade receivables, higher short-term loans, and higher liabilities under financial lease, while higher inventories resulted in decreased quick ratio.

- Higher IBD/E from the end of 2015 was due to higher short-term loans from financial institutions and increased liabilities under financial lease agreements.
- Lower D/E ratio was resulted from reduced trade payables while the Company's retained earnings increased following incurring profits.

Cash Cycle Days

- Improved cash cycle days YoY was due to shortened collection days and inventory days, in spite of reduced payment days.
